Taking care of your workforce - big and small

## Healthcare insurance from Andrew Bourne & Co

Britain's workforce takes an average 8½ days off sick during a 12 month period, costing companies around £11 billion a year. Coughs and sneezes are one thing – but what happens if it's something more serious resulting in a costly long term absence? If you are a small business owner, you simply can't afford for yourself or your staff to get ill – unless you have adequate protection in the form of insurance.

Andrew Bourne & Co is a healthcare specialist. We understand every aspect of corporate healthcare, and have close contacts with medical consultants and health support specialists across the UK. Working together, we can ensure that you receive a professional and competitive healthcare service offering you protection and peace of mind.

Whether you require group cover, cash plans for employees or individual policies, we have the solutions that best meet your needs. We'll take the time to understand your business requirements, and then advise you on the most relevant policy.

Our healthcare cover offers the following benefits:

- *A reduction in consultation and hospital waiting times*
- *A quicker return to work due to timely treatment*
- *Minimal disruption through planned absence*
- *Reduction of the low morale associated with ill health*
- *A sign to employees that they are valued*
- *A reduction in the likelihood of employee litigation*
- *Prevention of ill health through health screening*

Let us take care of your insurance so you can take care of business.
